LEWMP Publications

Armstrong, JL, Kingsford, RT & Jenkins, KM 2009, The effect of regulating the Lachlan River on the Booligal Wetlands: the floodplain Red Gum Swamps, Wetlands and Rivers, School of Earth and Environmental Sciences, University of New South Wales, Kensington.

Barbour, EJ, Driver, PD, Kuczera, GA, Blakers, RS & Croke, BFW 2011, 'Optimizing environmental flow rules – a conceptual model', MODSIM2011: 19th International Congress on Modelling and Simulation, Modelling and Simulation Society of Australia and New Zealand, Perth, Australia, pp. 3994–4000.

Brady, A, Shaikh, M, King, A, Ross, J & Sharma, P 1998, The Great Cumbung Swamp: assessment of water requirements, NSW Department of Land and Water Conservation, Sydney, NSW.

Chowdhury, S & Driver, P 2007, 'An ecohydrological model of waterbird nesting events to altered floodplain hydrology', MODSIM2007: International Congress on Modelling and Simulation, Modelling and Simulation Society of Australia and New Zealand, Christchurch, New Zealand, pp. 2896–2902.

CSIRO 2007, Climate change in the Lachlan Catchment, report prepared for the New South Wales Government by the CSIRO, Australia.

CSIRO 2008, Water availability in the Lachlan, a report to the Australian Government from the CSIRO Murray–Darling Basin Sustainable Yields Project, CSIRO, Canberra, ACT.

Davis, JA, Friend, RH, Hamilton, DP, Horwitz, P, McComb, AJ & Oldham, CE 2001, Environmental water requirements to maintain wetlands of national and international importance, Environmental Flows Initiative Technical Report number 1, Commonwealth of Australia, Canberra, ACT.

Driver, P, O'Rourke, M, Robinson, M, Jones, J & Raisin, G 2003, Great Cumbung Swamp water balance assessment, draft final report to NSW Department of Infrastructure, Planning and Natural Resources, Central West Region, Forbes, NSW.

Driver, P, Barbour, E & Michener, K 2011, 'An integrated surface water, groundwater and wetland plant model of drought response and recovery for environmental water management', MODSIM2011: 19th International Congress on Modelling and Simulation, Modelling and Simulation Society of Australia and New Zealand, Perth, Australia, pp. 2444–2450.

Driver, PD, Chowdhury, S, Hameed, T, O'Rourke, M & Shaikh, M 2010, 'Ecosystem response models for lower Calare (Lachlan River) floodplain wetlands: managing wetland biota and

climate change modelling', in I Overton & N Saintilan (eds), *Ecosystem response modelling in the Murray–Darling Basin*, CSIRO Publishing, pp. 183–196.

Driver, PD, Chowdhury, S, Hameed, T, & Shaikh, M 2008, 'Ecosystem response modelling in the lower Lachlan', a presentation given at the CSIRO workshop Ecosystem response modelling in the Murray–Darling Basin, Waterview Conference Centre, Sydney Olympic Park, Sydney, 5–6 November 2008.

Driver, PD, Chowdhury, S, Wettin, P & Jones, H 2005, 'Models to predict the effects of environmental flow releases on wetland inundation and the success of colonial bird breeding in the Lachlan River, NSW', *Proceedings of the 4th Annual Stream Management Conference*, Launceston, Australia.

Driver, PD, Hameed, T, Smith, A, Wettin, P & Raisin, G 2005, 'Rehabilitation of wetland inundation regimes in the Lachlan River, NSW, Australia: achievements and ongoing challenges', *Proceedings of the 8th International River Symposium*, Brisbane, Australia.

Lachlan Catchment Management Authority, 2006, *Lachlan Catchment Action Plan 2006*, Lachlan Catchment Management Authority, Forbes, NSW.

LRMC 2003, *Water Sharing Plan for the Lachlan Regulated River*, Lachlan River Management Committee, NSW Government, Sydney, NSW.

NSW Department of Primary Industries 2006, *Reducing the impact of weirs on aquatic habitat: New South Wales detailed weir review, Lachlan CMA region*, report to the New South Wales Environmental Trust, NSW Department of Primary Industries, Flemington, NSW.

NSW Fisheries Scientific Committee 2005, *Final recommendation, aquatic ecological community in the natural drainage system of the lowland catchment of the Lachlan River*, NSW Department of Primary Industries, Sydney, NSW.

NSW Department of Primary Industry 2006, *Identification, assessment and prioritisation of threatening processes to the aquatic environment of the Lachlan Catchment: report to the Lachlan Catchment Management Authority*, NSW Department of Primary Industries, Sydney, NSW.

NSW Office of Water 2010, *Implementation program for the Water Sharing Plan for the Lachlan Regulated River Water Source, January 2009–June 2014*, in *Government Gazette of the State of New South Wales no.30*, Strategic Communications and Government Advertising, Sydney, pp.583–602.

Pressey, RL, Bell, FC, Barker, J, Rundle, AS & Belcher, CA 1984, *Bio-physical features of the Lachlan-Murrumbidgee confluence, south-western New South Wales*, a report prepared for the NSW National Parks and Wildlife Service.

Roberts, J 2007, *Condition assessment of Murrumbidgee Swamp: benchmarking and*

recommending a method for long-term monitoring, a report to the NSW Riverbank Programme, report JR/2007, Canberra, ACT.

University of Canberra 2008, Ecological Character Description of the Lower Lachlan Floodplain Wetlands, a report to the NSW Department of Environment and Climate Change, Riverine Landscapes Laboratory, University of Canberra.

Wassens, S, Arnaiz, OL & Watts, RJ 2007, Assessing the diversity, abundance and hydrological requirements of frog populations at 'Burrawang West' and 'Yarnel' Lagoons, two small wetlands on anabranch creeks of the mid-Lachlan River, a report prepared for the Department of Environment, Conservation and Climate Change New South Wales, Institute of Land, Water and Society, School of Environmental Sciences Charles Sturt University, Albury, NSW.

Wettin, P, Driver, P, Maher, M & Thurtell, L 2007, 'Environmental flows on the Lachlan River—20 years of policy, science and adaptive management', Proceedings of the 10th International River Symposium, Brisbane, Australia.

General Publications

Baumgartner, L 2007, The Downstream Mortality of Native Fish Project, brochure prepared by the NSW Department of Primary Industries (Brochure No. 8161) as part of a project funded by the Murray Darling Basin Commission (Project No. MD744).

Baumgartner, L, Conallin, J, Wooden, I, Campbell, B, Gee, R, Robinson, WA & Mallen-Cooper, M 2013, 'Using flow guilds of freshwater fish in an adaptive management framework to simplify environmental flow delivery for semi-arid riverine systems', Fish and Fisheries, vol. 14, no.2.

CSIRO 2001, Climate change projections for Australia, Climate Impact Group, CSIRO Atmospheric Research, Melbourne, VIC.

Hamstead, M 2007, What is 'environmental water'?, Proceedings of the 5th Australian Stream Management Conference, Australian rivers: making a difference, Thurgoona, NSW.

Land and Water Australia 2007, Defining 'environmental flows', Theme: environmental water allocation, fact sheet 1, Commonwealth of Australia, Land and Water Australia, Canberra, ACT.

Milligan, A (ed.) 2009, Emerging practice in active environmental water management in Australia: report and background paper from workshop discussions among practising environmental water managers, eWater CRC and the National Water Commission, Canberra, ACT.
